# Component Controllers

```
module.component("movieList", {  
  templateUrl: "/ps-movies/movie-list.component.html",  
  controllerAs: "model",  
  controller: function() {  
  
    var model = this;  
  
    model.message = "Hello from a component controller!";  
  
    model.changeMessage = function() {  
      model.message = "New message";  
    };  
  }  
});
```

# Components and Directives

module.controller

```
<div ng-controller="MovieListController">  
</div>
```

module.directive

```
<movie-list>  
</movie-list>
```

module.component

# Summary

```
module.component("movieRating", {
  templateUrl: "/ps-movies/movie-rating.component.html",
  bindings: {
    value: "<"
  },
  transclude: true,
  controllerAs: "model",
  controller: function() {
    var model = this;

    model.$onInit = function() {
      model.entries = new Array(model.value);
    };

    model.$onChanges = function() {
      model.entries = new Array(model.value);
    };
  }
});
```
